Project: Thornlie Pipeline Realignment

Client: BP Refinery Kwinana

Contract Value: POA

Completion: Completed in December 2003

Details:

In conjunction with piping contractor excavation, supply and install new 2 km section of 200nb pipe for BP Refinery Kwinana's Kewdale pipe line to make way for new Thornlie train station in suburban Thornlie.

Scope included

- 2km of excavation and backfill.
- Horizontal under road boring.
- Sheet piling, shoring and dewatering.
- Various concrete pump foundations and slabs.
