

Civil Work

Project: DP World Reefer Towers

Client: V & D Engineering

Contract Value: \$260,000

Completion: Completed in December 2007

Details:

Civil works for the construction of 8 new Reefer (Refrigeration) Towers at the DP World container yard in North Fremantle.

Scope included

- Demolition of redundant footings.
- Excavation, forming and installation of reinforcing steel.
- Each tower consisted of two 17m long strip footings.
- Each footing incorporated large steel plates that were cast into a concrete kerb section.
- Installation of service conduits beneath and connecting each footing.
- Container stacking area pavement rehabilitated as required.
